

LOUISIANA DEPARTMENT OF JUSTICE
PERFORMANCE STRATEGIC PLAN
FY 2017-2018 THROUGH FY 2021-2022

July 1, 2016

Record Retention

The Department of Justice has an internal electronic filing storage system that allows the agency to store greater volume of documentation that needs to be retained and protected. This system allows the agency to generate reports that are more reliable and standardized. The agency has the capability to store and retrieve information pertaining to legal documents, accounting documents, human resource files, contracts and performance measurements of the agency.

Over the years, this system has been revised as needed to ensure that the missions of the Department of Justice are met and the citizens of the state of Louisiana are properly represented.

Louisiana Department of Justice

VISION

Louisiana citizens will live in safe communities and a healthy environment where economic opportunities are available to pursue a better quality of life while natural resources are preserved for future generations.

MISSION

To protect the people and resources of the State of Louisiana by providing superior legal representation, and interpretation, professional and effective law enforcement, and public education programs.

PHILOSOPHY

While enforcing the laws and protecting the interests of the state, the Department of Justice will respect the citizens of Louisiana, and foster a sense of pride in its employees, and ensure employee productivity through a system of performance based management.

GOALS

- I. The Department of Justice will provide superior legal and professional services to Louisiana citizens, private sector organizations, and all governmental entities.
- II. The Department of Justice will improve the process of recovering monies owed the State of Louisiana and limit the liabilities of the state.
- III. The Department of Justice will develop and support programs that ensure a safe environment in Louisiana communities, schools, and workplaces.

MISSION

The mission of the Administrative Services Program is to provide superior services to the citizens of Louisiana, management support and oversight to the Department of Justice, and support to other governmental entities in the federal, state, and local sectors.

PROGRAM ACTIVITIES

The Department has developed and implemented a work management program to provide input into a quality assurance system that will track and provide management with true accountability of the Administrative professionals work product. Improve skills and effectiveness of less experienced Administrative employees as the use of this program will encourage attention to detail. It will also provide an additional level of oversight and monitoring of work. The work management program will create and develop a system to track work processes and outputs of the Department's Administrative employees.

The Administrative Services Program includes the Executive Office of the Attorney General and the First Assistant Attorney General/Deputy Chief Attorney General; provides leadership, policy development, and administrative services including management and finance functions, coordination of departmental planning, professional services contracts, mail distribution, human resource management and payroll, employee training and development, property control and telecommunications, information technology, and internal/external communications.

The Administrative Services Division is currently divided into eight sections: Finance; Human Resources/Payroll; Collections; Purchasing; Property Control, Central Receiving, Fleet Management, and Mail Operations; Management Information Systems / Telecommunications; Governmental; and Budget/Accountability.

Over 47,000 educational accounts valued in excess of \$76 million are currently placed for collection. DEPARTMENT WIDE OBJECTIVES

COMMON

Sub-Goal > Provide quality technical support and training for the DOJ

Objective I.1: Ensure that 95% of new employees shall attend an administrative orientation within 60 days after hire each fiscal year by June 30, 2022.

Objective I.2: Respond to MIS Help Desk requests within an average of two hours from the time the requests were made each fiscal year by June 30, 2022.

Objective I.1: Ensure that 95% of new employees shall attend an administrative orientation within 60 days after hire each fiscal year by June 30, 2022.

Strategies

I.1.a: Update the administrative orientation program as office policies, procedures, and employee programs change.

I.1.b: Orientation programs shall be scheduled on a monthly basis by HR. New employees shall be notified during in-processing of their scheduled orientation date. Reminders will be sent by HR to new employee and supervisor.

Performance Indicators

INPUT

- # of new employees hired

OUTPUT

- # of new employees that have attended an administrative orientation

OUTCOME

- % of new employees hired that received orientation within 60 days of hire

Justification

Efficiency and productivity can only be achieved when employees are properly trained in their duties and responsibilities. The Department of Justice has changed and increased in size over the past several years. As a result, the Human Resources Section has had to accommodate the growth in employees while maintaining a static number of section employees. However, the continued objective of the Human Resources Section is to provide support services to all Department of Justice employees that include routine personnel services as well as employee and management training. Professional legal education is required for continued admission to practice law in Louisiana and serves to maintain competence of the legal staff and to develop maximum effectiveness. The Department of Justice can increase the skill and effectiveness of our attorneys and encourage the retention of career government attorneys by providing the required continuing legal education hours internally, while providing access to outside training to meet the specialized needs of attorneys practicing in specific areas.

Benchmarking

In our research of offices of other State Attorneys General, we found that training in the State of Texas and California is much more comprehensive than in Louisiana's. In particular, the Attorney General's Office of California conducts an extensive legal support-training program. A survey was conducted among the professional staff to determine weaknesses in the skill sets of their staff. They customized their training to address those needs and developed a comprehensive, high quality curriculum. As a result (for one example), their legal secretarial training is a two-week program consisting of modules covering every aspect of a secretary's job in their office and employment expectations of new state employees. Other benchmarking examples include: Central Louisiana State Hospital uses a three-month evaluation of new

employees to ensure they are being successful in their new positions. Leonard J. Chabert Medical Centers use a system that incorporates Performance Planning and Review (PPR) tickler notices, as well as series of reminder emails and telephone calls to monitor the performance of new employees and to make sure the supervisor plays an active role in helping the new employee learn and adjust to the new environment . If a PPR rating is not timely, a representative from HR completes a one-on-one remediation session with the supervisor on the PPR policy and confirms that the supervisor understand his/her role in the process. All new employees at the Department of Natural Resources receive website training as part of the new employee orientation. The website training provides DNR employees the knowledge to access DNR polices and procedures, civil service rules, job search options, and ISIS-HR employee self service options.

Primary Persons Benefiting

Primary persons that would benefit from this objective are the citizens of Louisiana, public officials, other state agencies, and the Department of Justice employees.

Objective I.2: Respond to MIS Help Desk requests within an average of two hours from the time the requests were made each fiscal year by June 30, 2022.

Strategies

I.2.a: MIS shall ensure the help desk is manned during all business hours.

I.2.b: MIS shall use an automated task management system to manage help desk response.

Performance Indicator

INPUT

- # of help desk requests received

OUTPUT

- # of hours help desk is manned

OUTCOME

- Average time to respond to help desk requests (in hours)

Justification

As customer expectations increase, it is imperative that internal service providers meet these expectations through excellent customer service.

Benchmarking

Emphasis on customer service is prevalent in many state agencies, throughout the information technology industry and Attorney General Office's across the country.

Primary Person Benefiting

All persons who rely on information provided by the Department of Justice including employees, citizens of Louisiana, public officials, and other state agencies.

GOAL II

The Department of Justice will improve the process of recovering monies owed the State of Louisiana and limit the liabilities of the State.

PROGRAM OBJECTIVES

Objective II.1: Collect at least \$4,000,000 in outstanding student loans and \$5,000,000 total collections each fiscal year by June 30, 2022.

Strategies

II.1.a: Improve the collector vs. account ratio in order for all accounts to be worked more effectively by increasing the number of collectors.

II.1.b: Work with MIS to convert current collections software to 1) automate manual processes where possible, 2) develop account tracking mechanism to prioritize work based on success probability, and 3) develop tracking mechanisms to identify strengths and weaknesses in collectors.

II.1.c: Identify training opportunities for collectors and collection attorneys and incorporate these into employee training plans.

Performance Indicator

INPUT

- Average number of accounts issued per year to number of collectors
- # of collectors

EFFICIENCY

- \$ Amount collected per collector

OUTCOME

- \$ Total collections from outstanding student loan cases
- \$ Total collections

Justification

By increasing the number of debts placed with the Collections Section, the section will continue to provide a service at no cost to the taxpayer, whereas when debts are placed with private collection agencies, they retain a portion of the funds recovered as a fee. Increasing the number of debts placed with the Collections Section insures that it will continue to provide a superior service to the State of Louisiana because every day debts are paid through this office and the number of accounts potentially decreases.

Benchmarking

There is only one other Attorney General's Office in the country that is doing (potentially) the same type of litigation/collection of defaulted education debts. We will be trying to find out more information on their operation in order to ascertain potential means of improvement. Additionally, we will be inquiring of other Attorney General's Office to find out if they perform a similar function.

Primary Person Benefiting

Our present clients and future clients, as well as the government of the State of Louisiana

MISSION

To provide competent and superior professional legal services in defense of the state's constitution and statutory laws, as well as advocate on behalf of the citizens and businesses of Louisiana against unfair trade practices and fraud.

PROGRAM ACTIVITIES

The Department intends to develop and implement a work management program to provide input into a quality assurance system that will track and provide management with true accountability of the legal professionals' work product. Improve skills and effectiveness of less experienced attorneys as the use of this program will encourage attention to detail. It will also provide an additional level of oversight and monitoring of work of less experienced trial attorneys. The work management program will create and develop a system to track work processes and outputs of the department's non-legal staff.

Specialization of attorneys within the Civil Program has always been encouraged and necessary. However, as the result of increased work load and/or separation of employees from the Program it has become apparent that cross-training among staff is critical. Thus, the Program intends to establish a policy where attorneys are required to learn the general job description and responsibilities of other attorneys within their section. Furthermore, it is required that Section Chiefs recognize and assign projects to attorneys within their Section which will give the attorneys additional legal experience, but which is not necessarily their everyday function and/or responsibility.

The Civil Division defends the Constitution and laws of the State of Louisiana; provides information and legal services (opinions, counsel, and representation) in the areas of general civil law, public finance and contract law, education law, environmental law, and land and natural resource law.

The Civil Division issues approximately 200 Legal Advisory Opinions per year to state and local entities and elected officials. Opinions are assigned to and authored by attorneys in each of the five (5) Civil Division Sections.

The Civil Division maintains an average of 1000 active litigation cases and averages 500 new cases per year. The Civil Division devotes an average of 6,000 hours per hour on litigation cases at a cost of approximately ¼ of the cost of outsourcing to private counsel.

The Civil Division represents 62 state boards or commissions and devotes an average of 8,000 hours of attorney time in this representation at approximately ¼ the cost of outsourcing to private counsel.

The Civil Division participates in the Attorney General Duty Call program which provides daily access to an attorney by the general public. The Civil Division averages 1,200 duty calls per year.

The Civil Division provides presentations to public entities and government member associations relating to the Louisiana Public Bid Law and Louisiana Open Meetings Law. Attorneys average 50 presentations per year to over 5,000 attendees.

The Civil Division reviews and approves all state agency and certain local political subdivision contracts to engage outside legal counsel. An average of 500 contracts are received, processed and considered by the Civil Division every year. In addition, the Civil Division receives for approval approximately 35 public bond resolutions.

The Civil Division also reviews and approves proposed settlement agreements between DEQ and private entities. In the fiscal year 11/12, 85 settlement agreements were reviewed and approved for a total of over \$3.3M.

DUPLICATION

No other state agency is charged with defense of the Constitution, the laws of the State of Louisiana, and protecting the State of Louisiana’s interests by providing legal services in the general area of consumer law. Thus, there is no duplication of effort by any other state agency.

- Objective I.1: Maintain an average of 30-day response time for research and writing opinions by June 30, 2022.
- Objective I.2: Through the Civil Division, to retain in-house 98% of the litigation cases received each fiscal year by June 30, 2022.
- Objective I.3: Provide legal services to at least 50 state boards and commissions
- Objective I.4: Through the Public Finance and Contracts Section of the Civil Division, to continue to process contracts within an average of 10 days; resolutions within an average of 6 days, public bond approvals within an average of 6 days; and garnishments within an average of 6 days by June 30, 2022.
- Objective I.5: Provide and maintain a strong outreach program by providing public presentations on civil law programs and responding to constituent calls and inquiries.
- Objective I.6: To review for approval of 100% of DEQ penalty settlements strictly in compliance with time limits each fiscal year by June 30, 2022.

Objective I.1: Maintain an average of 30-day response time for research and writing opinions by June 30, 2022.

Strategies

I.1.a: Use opinion tracking system to manage opinion timelines.

Performance Indicator

INPUT

- # of opinions requested
- # of opinions withdrawn

OUTPUT

- # of opinions released

OUTCOME

- Average response time for attorney to research and write an opinion (in days) (Count only opinions released.)
- Average time from receipt to release of an opinion (in days) (Count only opinions released.)

Justification

The Attorney General's Office is statutorily mandated to provide opinions upon request.

Benchmarking

This is a standard and will not need benchmarking.

Primary Person Benefiting

The citizens of the state of Louisiana.

Objective I.2: Through the Civil Division, to retain in-house 98% of the litigation cases received each fiscal year by June 30, 2022.

Strategies

I.2.a: Ensure sufficient range of knowledge and expertise to justify assignment of DOJ attorneys.

Performance Indicator

INPUT

- # of cases received
- # of cases being handled in-house

OUTPUT

- # of cases contracted to outside firms

OUTCOME

- % of cases handled in-house each fiscal year

Justification

Increased in-house legal representation will be more cost effective for the citizens of the state.

Benchmarking

Will contact NAAG and NAIC to determine percentage of in-house representation in other states.

Primary Person Benefiting

The general public and clients of the Department of Justice.

Objective I.3: Provide legal services to at least 50 state boards and commissions.

Strategies

- I.3.a:** Prioritize a list of boards and commissions for which we want to provide representation based on the appropriateness of skills and the ability of the boards and commissions to pay.

- I.3.b:** Develop a brief proposal that outlines the functions and capabilities of the Civil Division and a section chief will present a proposal to whoever makes decisions for the boards and commissions.

- I.3.c:** After consultation with the First Assistant, the appropriate section chief shall approach selected boards and commission decision makers about possible representation.

Performance Indicators

INPUT

- # of hours devoted to current Boards and Commissions
- # of hours devoted to boards and commissions last FY
- # of boards and commissions currently represented

OUTPUT

- # of new boards and commissions represented

Justification

Increasing the number of hours devoted to current Boards and Commissions by 5% per Fiscal Year will greatly benefit the Civil Division and the Department as a whole in terms of providing expert legal representation at a reduced rate (than private sector) to boards and commissions, who are not in a position to be able to afford private legal assistance, which in turn enables the boards and commissions to be more productive and to provide a better service to its clients/customers. Additionally, increasing this service will increase the specialized knowledge of the attorneys on staff within the Civil Division.

Benchmarking

By increasing the number of hours devoted to boards and commissions by the Attorney General's Office, there will also be an increase in the number of boards and commissions represented. If necessary, additional attorneys may be needed to exclusively represent boards and commissions in various Civil Division sections. There is also a target to have specialization in this field. The attorneys who presently represent boards and commission have been doing so for 2-5 years and are gaining the experience and knowledge to apply same to specializing in this field of representation. They presently compare in knowledge to private practice attorneys who are in this line of work, but not in experience. Therefore, the target is for assistant attorneys general to gain more experience in this field so boards and commissions will seek our legal representation, rather than private counsel. We will continue to benchmark in the area of cost, so that a target can be set in the near future.

Primary Person Benefiting

The general public, particular boards and commissions, and the Louisiana Department of Justice.

Objective I.4: Through the Public Finance and Contracts Section of the Civil Division, to continue to process contracts within an average of 10 days; resolutions within an average of 6 days, public bond approvals within an average of 6 days; and garnishments within an average of 6 days by June 30, 2022.

Strategies

I.4.a: Use tracking system to manage timelines.

Performance Indicator

OUTCOME

- Average processing time for contracts¹
- Average processing time for resolutions¹
- Average processing time for public bond approvals (TEFRA)¹
- Average processing time for garnishment¹

Justification

To continue to provide competent and quality legal representation in an area of law which remains virtually uncharted in the State of Louisiana and the country.

Benchmarking

We have been informed by the Department of Insurance that because of the number of insurance companies placed in receivership in the State of Louisiana over the last several years, Louisiana may be leading the nation in the development and implementation of insurance receivership practices and laws. Therefore, it is very possible that Louisiana receivership management practices and legal analyses of related law may serve as a benchmark for other states.

Primary Persons Benefiting

The general public and the Department of Justice

¹ Count only those completed.

Objective I.5: Provide and maintain a strong outreach program by providing public presentations on civil law programs and responding to constituent calls and inquiries.

Strategies

I.5.a: Use constituent calls tracking system to determine the number of constituent calls received and answered.

Performance Indicator

INPUT

- Number of specialized inquiries received from state, local or private entities

OUTPUT

- Total number of presentations made to public and private entities
- Total Number of attendees at presentations made to public and private entities
- Total number of constituent services tickets
- Number of non-duty attorney tickets resolved
- Number of duty attorney tickets resolved
- Number of walk-ins resolved
- Number of private request letters resolved
- Number of responses to specialized inquiries

OUTCOME

- Total number of constituent tickets resolved
- Total number of constituent tickets unresolved

Justification

The Attorney General Office has an established policy to receive and respond to constituent calls.

Benchmarking

This is a standard and will not need benchmarking.

Primary Persons Benefiting

The general public and the Department of Justice

² The Master Settlement Agreement:

Starting in 1994, several States sued the country’s largest tobacco manufacturers to recover the costs incurred by the States in treating smoking-related diseases, and to address the manufacturers’ marketing practices and other violations of consumer protection, antitrust and other State laws. On March 13, 1996, Louisiana filed its complaint, which was similar in substance to complaints filed by other States. (See Richard P. Ieyoub et al. vs. Philip Morris, Inc et. al., Fourteenth Judicial District Court, Parish of Calcasieu, State of Louisiana, Number 98-6473.) The state lawsuits were settled through execution of the MSA on November 23, 1998. The MSA was signed by 52 governmental jurisdictions (46 states, the District of Columbia, Puerto Rico, and four territories), which are defined by the MSA as the “Settling States.” MSA § II(qq). (Four states – Florida, Minnesota, Mississippi and Texas – settled separately.) The defendants that executed the MSA on November 23, 1998 – Philip Morris, Lorillard, Brown & Williamson and R.J. Reynolds – are known as the “Original Participating Manufacturers” or “OPMs.” MSA § II(hh).

Except as expressly provided in this Agreement, once an entity becomes a Participating Manufacturer such entity shall permanently retain the status of Participating Manufacturer. Each Participating Manufacturer shall regularly report its shipments of Cigarettes in or to the fifty United States, the District of Columbia and Puerto Rico to Management Science Associates, Inc. (or a successor entity as set forth in subsection (mm)). Solely for purposes of calculations pursuant to subsection IX(d), a Tobacco Product Manufacturer that is not a signatory to this Agreement shall be deemed to be a “Participating Manufacturer” if the Original Participating Manufacturers unanimously consent in writing.

MISSION

The mission of the Criminal Program is to seek justice on behalf of the citizens of the State of Louisiana by providing prompt, professional and ethical services to the people of the state in the prosecution of criminal cases and other matters referred to this division of the Department of Justice; and; to investigate violations of criminal laws; to help maintain integrity in government; to assist and advise local district attorneys in the analysis and prosecution of criminal matters, and to protect and serve the public.

PROGRAM ACTIVITIES

The Program has developed and implemented a work management program to provide input into a quality assurance system that tracks and provides management with true accountability of the legal professionals work product. Improving skills and effectiveness of less experienced trial attorneys with the use of this program will encourage attention to detail.

The Criminal Program conducts or assists in criminal prosecutions; acts as advisor for District Attorneys, the Legislature and law enforcement entities; provides legal services in the areas of extradition, appeals and federal *habeas corpus* proceedings, post-conviction relief, constitutional challenges, writs, expungements and *amicus curiae*; prepares attorney general opinions concerning criminal law; operates White Collar Crimes Section, Violent Crime and Drug Unit, Sexual Predator Apprehension Team, and Insurance Fraud Unit; investigates and prosecutes individuals and entities defrauding the Medicaid Program or abusing residents in health care facilities and initiates recovery of identified overpayments; and provides investigation services for the department.

The Criminal Division is currently divided into sections.

General Prosecutions Sections

The General Prosecution Sections prosecutes violations of all types of criminal laws of the state by conducting or assisting in criminal prosecutions pursuant to the recusal or request of District Attorneys. Prosecutions handled by these Sections include, but are not limited to, cases involving white collar crime, public corruption, narcotics violations, violent crimes and violations of the state's environmental laws. This Section also serves as (1) advisor to the district attorneys, law enforcement and the Legislature, (2) a training agency for law enforcement, and (3) as liaison between various levels of law enforcement within the state.

Appeals and Special Services Section

The Appeals and Special Services Section provides legal services to the state in the areas of (1) extraditions, (2) federal habeas corpus and post conviction relief, (3) as amicus curiae in matters pending before the U.S. Supreme Court, (4) constitutional challenges, and (5) by preparation of Attorney General Opinions concerning matters of criminal law.

Sexual Predator Apprehension Team(AKA Sexual Predator Unit)

The Sexual Predator Unit oversees the statewide implementation and enforcement of Louisiana's sex offender and child predator registration and notification laws with regard to over 13,000 registered sex offenders and child predators. This is done by working with federal, state, and local investigative resources, and the public, to make sure offenders who are required to register do so, or are apprehended for their failure to do so. In addition, the Unit is responsible for overseeing continuing substantial compliance with the Federal Adam Walsh Act by providing information to the legislature when changes are proposed to our registration and notification laws and by reporting to the U.S. DOJ any changes that are enacted. The Unit provides trainings and consultations to law enforcement, prosecutors, and other state and federal agencies related to sex offender and child predator registration and notification requirements under Louisiana law. Lastly, this Unit handles all litigation related to the application of sex offender registration and notification laws and sets official registration end dates for offenders who have less than lifetime registration periods. The authority and duties of the unit are set forth in LSA –R.S. 15:552, 15:544(E), 15:544.1, and 15:544.2.

Insurance Fraud Section

The Insurance Fraud Section provides legal services to the state in the area of insurance fraud by providing legal assistance to the Department of Insurance and Louisiana State Police in connection with crimes of this nature and by prosecuting all types of insurance fraud cases.

Medicaid Fraud Control Unit

In Louisiana, the responsibility to investigate and prosecute all types of fraud perpetrated by providers of medical services in the Medicaid program has been assigned to the Medicaid Fraud Control Section of the Department of Justice.

The Unit receives cases for investigation from the U.S. Department of Health and Human Services, from the Louisiana Department of Health and Hospitals, and from many other sources.

Regulations issued by the U. S. Department of Health and Human Services also require the Medicaid Fraud Control Unit to review

complaints alleging abuse or neglect of Medicaid patients in health care facilities and to investigate those cases which indicate a substantial potential for criminal prosecution. The Medicaid Fraud Control Unit investigates and prosecutes individuals and entities defrauding the

Medicaid Program or abusing residents in health care facilities. It also initiates recovery of identified overpayments.

The Investigation Division is currently divided into three sections.

Investigation Section - Trial/General Investigation Section

The Investigation Section is responsible for the investigation of alleged violations of the criminal laws of this state, conducting of civil and special investigations including investigations of public corruption, institutional and insurance fraud. The Section also provides investigative services to the attorneys in the Criminal Division to include follow-up on cases, locating witnesses, providing security for witnesses, witness management at court proceedings, testifying on behalf of the state, and evidence management. This Section also responds to the numerous requests for investigative assistance from local, state or federal governmental agencies.

The Investigation Section is also responsible for coordinating access, safety and security within the Department of Justice, including executive security and coordinates with the State Office of Buildings and Grounds with regard to matters within the Livingston Building and offices in the State Capitol. This Section also includes the clerical support function, file room management, case tracking, analytical support, and the maintenance and operation of the Division's computer network, as well as fleet management. In addition, this Section includes investigators assigned to outside agency task forces, workers' compensation fraud investigations, and intelligence information.

Investigations Section – Fugitive Apprehension Section

This Section was created in 2008 as the LADOJ recognized the need to devote manpower and assets to the apprehension of fugitives from justice. The Louisiana Department of Justice Fugitive Apprehension Unit was created for the purpose of assisting local law enforcement agencies in locating and apprehending fugitives from justice. The unit officially started on Monday, May 5, and less than 48 hours later they arrested a suspect wanted by the Hammond Police Department. The FAU is dedicated to assisting local law enforcement agencies in locating and arresting wanted individuals who either cannot be located by the local agency, or where the suspect is believed to be located in a jurisdiction other than where the arrest warrant is issued. The majority of the suspects

are aware they are being sought by law enforcement and have taken measures to evade capture. Due to pending caseloads and other considerations, local law enforcement agencies may not have the time or resources available to locate them. Crossing jurisdictional lines can also be problematic for local law enforcement when searching for wanted individuals who reside in, or have fled to, a different city, parish, or state. The FAU has statewide jurisdiction and can dedicate all the time and resources necessary to bring these fugitives to justice. The FAU has also worked successfully with law enforcement in surrounding states in locating and apprehending fugitives from Louisiana.

Cyber Crime Unit (ICAC and Forensic Lab)

The CCU is a specialized unit with attorneys, investigators, and computer forensic experts all trained in the specific field of cyber-crime investigation and prosecution. This specialized unit concentrates on combating crimes involving digital technology. The CCU includes the first state computer forensic center and provides forensic examinations of digital evidence to the department and other local, state, and federal government agencies. The Section includes the Louisiana Internet Crimes Against Children Task Force (ICAC), that investigates crimes relating to child exploitation and abuse on the Internet. ICAC investigators conduct proactive online undercover operations and investigate child exploitation cases referred to the department from other agencies, as well as the National Center for Missing and Exploited Children. The CCU also works cases involving online auction fraud, computer intrusion, death investigations, domestic violence, economic fraud including online fraud and counterfeiting, email threats, harassment and stalking, extortion, gaming, identity theft, narcotics, prostitution, human trafficking, software piracy, and telecommunications fraud. The unit also provides training to local law enforcement and gives public service lectures in regard to technology based crimes throughout the State of Louisiana.

MISSION

The mission of the Litigation Program is to provide legal representation for the Office of Risk Management, the Self-Insurance Fund, the State of Louisiana and its departments, agencies, boards and commissions and their officers, officials, employees and agents in all claims covered by the State Self-Insurance Fund, and in all tort claims whether or not covered by the Self-Insurance Fund.

The state's tort liability exposure is far greater than in the private sector, both in dollar amount and in variety of claims asserted; examples include: road hazard liability; public health care provider liability; legislative liability; regulatory liability; and alleged liability for illegal and/or intentionally wrongful actions of elected officials. Suits against the state may range from relatively minor worker's compensation claims to complex multi-district federal litigation involving hundreds of suits and/or parties and hundreds of millions of dollars of exposure. Estimated attorneys' fees range from less than \$500 to hundreds of thousands of dollars.

PROGRAM ACTIVITIES

The Program intends to develop and implement a work management program to provide input into a quality assurance system that will track and provide management with true accountability of the legal professionals work product. Improve skills and effectiveness of less experienced trial attorneys as the use of this program will encourage attention to detail. It will also provide an additional level of oversight and monitoring of work of less experienced trial attorneys. The work management program will create and develop systems to track work processes and outputs of the department's non legal staff.

The Litigation Program provides legal representation for the state in all claims covered by the self-insurance fund and in all tort claims.

The Litigation Program is headquartered in Baton Rouge and its Baton Rouge Office is subdivided into six sections: Administration, Civil Rights, General Liability, Medical Malpractice, Road Hazards, and Workers' Compensation.

BATON ROUGE OFFICE:

Administrative Section

The Administrative Section consists of the Director, two Deputy Directors, a case intake unit, the Law Library and Special Litigation Counsel.

The Director is responsible for the overall daily operations of the entire division and long term planning and goals of the division. The Director keeps the Attorney General and First Assistant apprised of all critical matters and works with the Administrative Division in the management of all employee matters within the Litigation Division. All sections and regional offices report to the director using the agency established chain of command that flows from the sections and regional office chiefs to the deputy directors and ultimately, the director. The administrative section, under the direction and guidance of the director, leads the regional offices with respect to office management, procedures and protocol. The two deputy directors provide managerial and case leadership and support to their designated sections and regional offices on a daily basis and report directly to the director.

The Case Intake Unit receives and processes suits as they are received. The suits are tracked until conclusion of litigation. A new electronic tracking system was implemented to make this process more reliable as well as to ensure accountability. The Administrative Section Chief performs two important case intake tasks, risk analysis and La. R.S. 13:5108.1 determinations.

The Law Library is directed by a law librarian who serves the research and reference needs of the entire Department of Justice and its state-wide employees. The support of the law library is enjoyed by our attorneys and paralegals in the form of CLE's, seminars, and other in-house training sessions. Our law librarian also engages in the education and training of law clerks from four area law schools during their rotations in the Attorney General's Office. The Law Library's collection of Acts of the Louisiana Legislature dates back to 1848. The library also contains Louisiana Attorney General Opinions dated back to 1885. For this reason, the law library is often called upon by various state agencies for historical research.

Special Litigation Counsel continues to successfully defend the State's Judiciary, the Disciplinary Counsel, Judiciary Commission, and other complex litigation. Special Litigation Counsel defends cases involving specialized litigation issues while working with other divisions and contract counsel. The Special Litigation Counsel additionally handles special projects at the request of the Director and Attorney General.

Civil Rights Section

The Civil Rights Section provides legal representation to the state, state agencies, state officials and state employees in litigation seeking monetary damages brought under virtually all state and/or federal statutory schemes relating to employment and employment discrimination. This includes, but is not limited to, claims brought pursuant to Title VII, the Americans with Disabilities Act, the Age Discrimination in Employment Act, and the parallel state statutes contained in Title 23 of the Revised Statutes. The Section also provides legal representation to the Louisiana Department of Corrections, its officials and employees in civil rights actions brought by prisoners under 42 U.S.C. § 1983 and the Religious Land Use and Institutionalized Persons Act, as well as other claims brought pursuant to state law. The Section has a heavy trial schedule, trying multiple trials each month. Assistant Attorneys General within this section defend claims against the State that are framed as violations of both the United States and Louisiana Constitutions. The Assistant Attorneys General within the Section monitor and defend claims for attorney fees under 42 U.S.C. § 1988 and other parallel statutes.

Civil Rights participates with the National Association of Attorneys General (NAAG) in providing and discussing civil rights issues prevalent across the country as well as advising decision makers within the Department of Justice on participating in the presentation of amicus curiae brief in the United States Supreme Court.

General Liability Section

The General Liability Section defends all State agencies and their employees sued for monetary damages arising from all types of incidents which do not come under the purview of any other section in the Litigation Division. The types of claims are as varied as the agencies involved, such as automobile accidents involving state employees in the course of employment, falls on state property; prisoner claims based on state law, veterinary malpractice claims against the LSU School of Veterinary Medicine and suits against the Department of Child and Family Services.

General Liability attorneys work closely with risk managers, general counsel and in-house counsel at departments, universities and agencies throughout the state. The defense of cases from start to finish is a vigorous one – from exception and motion practice in the initial stages of litigation to bench or jury trials or negotiated settlements to conclude litigation. Section attorneys work diligently for the best outcome on behalf of the State. Attorneys from this section are frequently selected to present continuing Legal Education (CLE) lectures at the annual Department of Justice two-day, in-house CLE seminar.

Medical Malpractice Section

The Medical Malpractice Section defends the interests of the State and all State health care providers as defined by *La. R.S. 40:1237.1* against claims of alleged medical malpractice. Lawyers from this section continue to successfully defend the State through the Medical Review Panel process. In the event the suit is subsequently filed in District Court, the attorneys defend through the entire litigation process including hearings, trials and appeals. Medical Malpractice attorneys are also successful in using the Alternative Dispute Resolution process to mediate and/or negotiate favorable settlements in cases where the best interests of the State would be served by a reasonable and early settlement.

The Medical Malpractice Section, represented by Assistant Attorneys General throughout the State, continues the long-established tradition of offering and presenting lectures to Louisiana State University Health Sciences Center staff and residents. These educational events familiarize the States' doctors and doctors-in-training with the legal system and how best to minimize potential liability while providing much needed health care to a patient population consisting mainly of the State's poor and uninsured.

Road Hazards Section

The Road Hazard Section defends the interests of the Department of Transportation and Development (DOTD) in tort claims where a condition of the roadway is considered to have caused or contributed to an accident. This Section defends the DOTD when a roadway condition is alleged to have caused real property damage, i.e. flood damage. The section also defends issues concerning the Railroad Safety Program under 23 U.S.C. 130 and 23 U.S.C. 409 with respect to both on-system and off-system railroad crossings.

Our attorneys provide updated training and education to DOTD employees who are called upon to assist in preparing cases for trial and to testify in depositions and at trial court appearances. This same training is offered to any new DOTD employees to ensure that they are educated on current DOTD policy.

The section has also expanded their databank of expert witnesses for accident reconstruction; engineers for highway safety, maintenance, construction, and traffic operations; and experts in impairment of motorists by drugs and alcohol.

Workers' Compensation Section

The Workers' Compensation Section defends and protects the interests of the State of Louisiana and all of its agencies in workers' compensation, subrogation, and Second Injury Board litigation. This Section represents

the State in suits filed by injured State employees against their respective State agencies as a result of issues related to benefits payable under the Workers' Compensation Act.

The Section also pursues subrogation actions in various district courts on behalf of the State of Louisiana. Some are matters seeking to recover workers' compensation benefits paid to employees where the injury to the employee was caused by the negligence of a third party.

Additionally, the Workers' Compensation Section pursues reversal of Second Injury Board denials of reimbursement for workers' compensation benefits paid by the State to injured State employees. Generally, under the provisions of R.S. 23:1371, et. seq. and/or R.S. 23:1377, et. seq., employers who are required to pay workers' compensation benefits to an employee who, prior to the work injury, had a pre-existing condition/disability, may be entitled to reimbursement of those workers' compensation payments from the Second Injury Fund if certain criteria are met.

The attorneys in these two regional offices regularly defend the following agencies: Louisiana State Police (Troop D and Troop I), University of Louisiana at Lafayette, Louisiana State University at Eunice, McNeese State University, Louisiana Department of Wildlife and Fisheries, Louisiana Department of Social Services, Louisiana Department of Corrections, Louisiana Department of Transportation and Development (Districts 3 and 7), University Health and its Clinics in Lafayette and W.O. The state agencies defended include the Charity Hospital System, LSU Health Science Center, New Orleans City Park, the Superdome, the Sports Arena, three state prisons, and five state universities.

The New Orleans Litigation office assisted with the BP oil spill litigation and the office is currently participating in the law clerk externship program at Tulane Law School. This program allows law students to work in the office for course credit.

In addition, several of the office's attorneys teach students enrolled in the Tulane Trial Advocacy Program. The Advocacy Program consists of "mock trials" wherein law students act as prosecutors and defense attorneys as well as witnesses and are, thereafter, critiqued by their teachers on their performances during the course of the exercise.

The office defends the State and its agencies and is enhancing its reputation of being aggressive, confident, and fair. Due to the volume of cases, the office is able to sectionalize into substantive areas of defense with Section Specialist/Team Leaders who are able to mentor and coordinate defense of claims.

Shreveport Office

The Shreveport Regional Office of the Litigation Division defends civil rights, general liability, medical malpractice, road hazard, and workers' compensation actions brought against the State of Louisiana, its agencies, and employees. This office also prosecutes subrogation actions in a geographical area comprised of eleven (11) parishes in northwest and north central Louisiana including Caddo, Bossier, Webster, Claiborne, Union, Lincoln, Bienville, Jackson, De Soto, Red River and Winn parishes.

Among its client agencies are: regional health care institutions such as Louisiana State University Health Sciences Center-Shreveport, incorporating the medical school, its faculty attending physicians and its residents; six academic colleges including Louisiana State University-Shreveport, Grambling State University, Louisiana Tech University, Southern University of Shreveport-Bossier, Northwestern State University School of Nursing, and Bossier Parish Community College, two correctional facilities, the Department of Transportation and Development (DOTD) and numerous other regional agencies and facilities.
